KING SPRINGS MASTER CATALOGUE

PRODUCT INFORMATION

There are 3 major reasons why springs are replaced

1. **Height**
   There are 3 options when changing vehicle ride height.
   a. **To lower the vehicle (Cosmetic Enhancement):**
      i. The road
      ii. The tyres
      iii. The suspension bump stops
      For these reasons, performance replacement springs should be fitted.
   b. **To maintain of return vehicle to standard height:**
      Most common when original springs have sagged or previously fitted lowered springs are no longer required.
   c. **To raise the vehicle:**
      Common in 4WD vehicles, heavily laden vehicles, LPG, towing or whenever increased ground clearance is required.
2. **Handling**
   When improvement in handling is required, king springs performance replacement springs will substantially reduce body roll and improve vehicles stability.

   King springs performance lowered springs will also lower a vehicles centre of gravity.
3. **Heavy Loading**
   All vehicles are manufactured to a general acceptable standard and springs are no exception to this rule. With demands for comfort a growing priority, spring rates are kept as low as possible. For his reason, the original spring's ability to carry load and tow etc is, in most cases, poor.

   King Springs performance replacement springs will decrease the vehicle's ride height loss under load and improve vehicle stability when laden.

   King Springs performance replacement coil springs will achieve improvement in any or all of the above areas.

Height options (generalisation options)

SUPER LOW = Approximately 50mm Low
LOW = Approximately 30mm Low
STANDARD - Approximately standard plus 10mm
RAISED = Approximately standard plus 20-30mm

For more specific recommendations call our Hotline on +61 7 55396700. NOTE: Kings Super Low & Ultra Low sports replacement coil spring range is designed primarily for cosmetic enhancement (show cars etc). These parts may therefore render your vehicle illegal for use on public roads. Super low springs lower vehicle approximately 10-15mm lower than normal low ultra low a further 10-15mm again. Toyota Lancruiser 80-100 series and Nissan Patrol GQ-GU "SP3- 4 - 5 & 7" Fronts and "SP3- 4 - 5 & 7" rear raised springs are available and lift the vehicle approximately 3",4",5"and 7" respectively. Depending on load, these parts may render the vehicle illegal for use on public roads. Modifications may be necessary to brake lines shock absorbers etc. These part No's are not covered by king springs general warranty and conditions.

Progressive Rate (the facts)

King Springs are leaders in progressive rate coil spring technology. We incorporate both tapered wire and variable pitch in many of our designs where necessary to gain maximum achievable benefit in ride comfort, handling and varying load carrying capacity.

KING SPRINGS MASTER CATALOGUE

WARRANTY AND CONDITIONS

King Springs warranty and conditions are in accordance with the australian competition and consumer act effective 1/1/2012 “our goods come with guarantees that cannot be excluded under the australian consumer law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure

Coil Springs

All Kings replacement coil springs listed in our general catalogue excluding motorsport applications have a limited lifetime warranty against the following.

1. Faulty Manufacture
2. Breakage
3. Sagging (being loss of original free height by more than 10mm)

Leaf Springs

All Kings heavy duty leaf springs listed in our general catalogue excluding motorsport applications have a 12month warranty against the following.

1. Faulty Manufacture
2. Breakage
3. Sagging (being loss of original free height by more than 10mm)

General

1. warranty valid to original purchaser (validation required)
2. faulty, broken or sagged springs will be replaced once validation has been approved.
3. In the event of a claim the consumer is to contact the supplier with the supplier to contact king springs.
4. All peripheral claims to be negotiated between King Springs and the supplier.

Credit

1. All credit returns must be accompanied with a credit request form with reference number, stating reason for return and original purchase invoice number before credit can be considered.
2. No return of goods after 30 days from date of purchase.
3. No return on specially manufactured, modified or procured good.

For more specific recommendations call our Hotline on +61 7 55396700. NOTE: Kings Super Low & Ultra Low sports replacement coil spring range is designed primarily for cosmetic enhancement (show cars etc). These parts may therefore render your vehicle illegal for use on public roads. Super low springs lower vehicle approximately 10-15mm lower than normal low ultra low a further 10-15mm again. Toyota Lancruiser 80-100 series and Nissan Patrol GQ-GU “SP3- 4 - 5 & 7” Fronts and “SP3- 4 - 5 & 7” rear raised springs are available and lift the vehicle approximately 3",4",5"and 7" respectively. Depending on load, these parts may render the vehicle illegal for use on public roads. Modifications may be necessary to brake lines shock absorbers etc. These part No’s are not covered by king springs general warranty and conditions.
